2 Erik Carlson is employed by General Electric Company as a toxicologist and works on PCB-related issues. He has provided expert opinion and testimony in the context of regulatory and legislative process and he holds stocks and bonds from stakeholders.

3 John Schell has consulted for several companies on PCB-related issues and provided expert opinions on regulatory issues related to PCBs.
NOTE REGARDING OBSERVERS: Each Observer agreed to respect the Guidelines for Observers at IARC Monographs meetings. Observers did not serve as meeting chair or subgroup chair, draft any part of a Monograph, or participate in the evaluations. They also agreed not to contact participants before the meeting, not to lobby them at any time, not to send them written materials, and not to offer them meals or other favours. IARC asked and reminded Working Group Members to report any contact or attempt to influence that they may have encountered, either before or during the meeting.
