LIST OF PARTICIPANTS

Members

Kalpana Balakrishnan, Sri Ramachandra University, India [unable to attend]
Michael Brauer, University of British Columbia, Canada (Subgroup Chair, Exposure Data)
Guosheng Chen, Health Canada, Canada
Judith Chow, Desert Research Institute, USA
David M. DeMarini, US Environmental Protection Agency, USA [unable to attend]
Francesco Forastiere, Regional Health Service of the Lazio Region, Italy
Uwe Heinrich, Fraunhofer Institute of Toxicology and Experimental Medicine, Germany
(R subgroup Chair, Cancer in Experimental Animals)
Rogene Henderson, Lovelace Respiratory Research Institute, USA
Wei Huang, Peking University Health Science Center, China
Lisbeth E. Knudsen, University of Copenhagen, Denmark
Francine Laden, Harvard Medical School, USA
Daniel L. Morgan, National Institute of Environmental Health Sciences, USA [unable to attend]
Peter Møller, University of Copenhagen, Denmark
David H. Phillips, King’s College London, United Kingdom
Ole Raaschou-Nielsen, Danish Cancer Society Research Center, Denmark
Paulo Hilario Nascimento Saldia, University of São Paulo, Brazil
Jonathan M. Samet, University of Southern California, USA (Overall Chair)
James J. Schauer, University of Wisconsin-Madison, USA
Paolo Vineis, Imperial College London, United Kingdom (Subgroup Chair, Cancer in Humans)
Paul A. White, Health Canada, Canada (Subgroup Chair, Mechanisms)
Takashi Yorifuji, Okayama University, Japan

Invited Specialists

Aaron J. Cohen, Health Effects Institute, USA
Gerard Hoek, Utrecht University, The Netherlands
Armistead Russell, Georgia Institute of Technology, USA

1 Francesco Forastiere has been serving during 2012 as an expert to the Court of Taranto, Italy on a case of industrial pollution. He worked for the Judge and not for any of the parties. The compensation only covered his expenses.
2 Ole Raaschou-Nielsen holds stock of in total less than US$10 000 in a company active in the sector of insulation.
3 Aaron Cohen is the principal scientist of the Health Effects Institute (HEI) which conducts research worldwide on the health effects of air pollution. The Institute’s core funding comes in equal parts from the United States Environmental Protection Agency and the makers of motor vehicles for sale in the United States.
4 Gerard Hoek has received significant research funding (until 2011) from CONCAWE, the oil companies' European association for environment, health and safety in refining and distribution.
Representatives of national and international health agencies

Emmanuelle Durand, for the French Agency for Food, Environment and Occupational Health and Safety, France
Matteo Redaelli, for the French Agency for Food, Environment and Occupational Health and Safety, France
Andre Zuber, for the European Commission, Belgium

Observers

G. Bruce Copley, for CONCAWE, Belgium
Paolo Crosignani, for the International Society of the Doctors for the Environment (ISDE), Italy
Béatrice Fervers, for the Centre Léon Bérard, France
Gaëlle Guillosou, for Eurelectric, Belgium
David Morgott, for CONCAWE, Belgium
Rashid Shaikh, for the Health Effects Institute, USA [unable to attend]
John Andrew Tomenson, for CONCAWE, Belgium

5 Armistead Russell is also Associated Editor of Environmental Science and Technology, a journal that is governed by the American Chemical Society. He received significant funding for research at the Georgia Institute of Technology from Phillips 66, a company with business in oil refineries, and from Southern Company, an energy company serving the Southeast of the USA. He also received research support from and consulted for the Electric Power Research Institute, Inc.
6 G. Bruce Copley is employed as a consultant/technical advisor by ExxonMobil Corporation and also holds shares of ExxonMobil stock. His participation is sponsored by CONCAWE, Belgium.
7 Paolo Crosignani’s participation is sponsored by the International Society of the Doctors for the Environment (ISDE), Italy.
8 Gaëlle Guillosou is employed by the EDF Group, a worldwide energy company. Her participation is sponsored by Eurelectric, Belgium.
9 David Morgott is owner and sole proprietor of Pennsport Consulting, LLC, Philadelphia, PA. His participation is sponsored by CONCAWE, Belgium.
10 Rashid Shaikh is the Director of Science of the Health Effects Institute (HEI) which conducts research worldwide on the health effects of air pollution. The Institute’s core funding comes in equal part from the United States Environmental Protection Agency and the makers of motor vehicles for sale in the USA.
11 John Andrew Tomenson is director of Causation Ltd, UK, and has consulted for the Lower Olefins Sector Group of Cefic, The European Chemical Industry Council, and the Lower Olefins Aromatics REACH Consortium. His participation is sponsored by CONCAWE, Belgium.
IARC/WHO secretariat

Robert Baan, Visiting Scientist, Section of IARC Monographs
Lamia Benbrahim-Tallaa, Section of IARC Monographs
Véronique Bouvard, Section of IARC Monographs
Anya Burton, Section of Environment and Radiation
Graham Byrnes, Section of Genetics
Rafael Carel, Visiting Scientist, University of Haifa, Israel
Rachel Denholm, Section of the Environment
Caroline Dickens, Section of Environment and Radiation
Carlos Dora, WHO, Switzerland
Fatiha El Ghissassi, Section of IARC Monographs
Carolina Espina Garcia, Section of the Environment
Davide Degli Esposti, Section of Mechanisms of Carcinogenesis
Nicolas Gaudin, Communications
Yann Grosse, Section of IARC Monographs
Neela Guha, Section of IARC Monographs
Ghassan Hamra, Section of the Environment
Marie-Eve Héroux, WHO European Centre for Environment and Health, Germany
Béatrice Lauby-Secretan, Section of IARC Monographs
Dana Loomis, Section of IARC Monographs (Responsible Officer)
Heidi Mattock, Section of IARC Monographs (Editor)
Fiona McKenzie, Section of Nutrition and Metabolism
Christopher Portier, Visiting Scientist, Section of IARC Monographs
Isabelle Romieu, Section of Nutrition and Metabolism
Kurt Straif, Section of IARC Monographs (Section Head)

NOTE REGARDING CONFLICTS OF INTERESTS: Each participant submitted WHO’s Declaration of Interests, which covers employment and consulting activities, individual and institutional research support, and other financial interests. Participants identified as Invited Specialists did not serve as meeting chair or subgroup chair, draft text that pertains to the description or interpretation of cancer data, or participate in the evaluations. The Declarations were updated and reviewed again at the opening of the meeting.

NOTE REGARDING OBSERVERS: Each Observer agreed to respect the Guidelines for Observers at IARC Monographs meetings. Observers did not serve as meeting chair or subgroup chair, draft any part of a Monograph, or participate in the evaluations. They also agreed not to contact participants before the meeting, not to lobby them at any time, not to send them written materials, and not to offer them meals or other favours. IARC asked and reminded Working Group Members to report any contact or attempt to influence that they may have encountered, either before or during the meeting.
