

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans
VOLUME 116: COFFEE, MATE AND VERY HOT BEVERAGES
Lyon, France: 24-31 May 2016

Working Group Members and Invited Specialists serve in their individual capacities as scientists and not as representatives of their government or any organization with which they are affiliated. Affiliations are provided for identification purposes only.

LIST OF PARTICIPANTS

Members

Christina Bamia, University of Athens, Greece
John A. Baron, University of North Carolina at Chapel Hill, USA
Natasa Djordjevic, University of Kragujevac, Serbia
Adriana Farah, Federal University of Rio de Janeiro, Brazil
Elvira Gonzalez de Mejia, University of Illinois, USA
Peter C.H. Hollman, Wageningen University, The Netherlands
Manami Inoue, University of Tokyo, Japan
Farhad Islami, American Cancer Society, Inc., USA (unable to attend)
Charles William Jameson, CWJ Consulting, LLC, USA
Farin Kamangar, Morgan State University, USA
Siegfried Knasmüller, Medical University of Vienna, Austria
Dirk W. Lachenmeier, Chemical and Veterinary Investigation Karlsruhe, Germany
(Subgroup Chair, Exposure)
David L. McCormick, IIT Research Institute, USA (Subgroup Chair, Cancer in Experimental Animals)
Elizabeth Milne, Telethon Kids Institute, Australia
Igor Pogribny, National Center for Toxicological Research, USA
Luis Felipe Ribeiro Pinto, Brazilian National Cancer Institute, Brazil
Ivan I. Rusyn, Texas A&M University, USA (Subgroup Chair, Mechanisms)
Rashmi Sinha, National Cancer Institute, USA (Subgroup Chair, Cancer in Humans)
Leslie T. Stayner, University of Illinois at Chicago, USA (Overall Chair)
Mariana C. Stern, University of Southern California, USA
Alessandra Tavani, Mario Negri Institute of Pharmacological Research, Italy
Piet van den Brandt, Maastricht University, The Netherlands
Kathryn M. Wilson, Harvard T.H. Chan School of Public Health, USA

Invited Specialists

None

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans
VOLUME 116: COFFEE, MATE AND VERY HOT BEVERAGES
Lyon, France: 24-31 May 2016

Representatives of national and international health agencies

Anne Morise, for the French Agency for Food, Environmental and Occupational Health and Safety (ANSES), France

Observers

Valentina Guercio, for the Mario Negri Institute of Pharmacological Research, Italy
Thomas Hatzold, for the Institute for Scientific Organization on Coffee (ISIC), Switzerland¹
Alan Leviton, for the National Coffee Association, USA²
Frankie Phillips, Freelance Dietitian and Nutrition Consultant, United Kingdom
Valentin Thomas, for the University Paris Dauphine, France
Christian Wallmann, for the University of Kent, United Kingdom
Michael Wilde, for the University of Kent, United Kingdom

IARC secretariat

Behnoush Abedi-Ardekani, Section of Genetics
Lamia Benbrahim-Tallaa, Section of *IARC Monographs*
Véronique Bouvard, Section of *IARC Monographs*
Fatiha El Ghissassi, Section of *IARC Monographs*
Yann Grosse, Section of *IARC Monographs*
Neela Guha, Section of *IARC Monographs*
Kathryn Guyton, Section of *IARC Monographs*
Inge Huybrechts, Section of Nutrition and Metabolism
Béatrice Lauby-Secretan, Section of *IARC Monographs*
Dana Loomis, Section of *IARC Monographs* (Responsible Officer)
Heidi Mattock, Section of *IARC Monographs* (Editor)
Hwayoung Noh, Section of Nutrition and Metabolism
Silvia Pisanu, Section of Nutrition and Metabolism
Joseph Rothwell, Section of Nutrition and Metabolism
Augustin Scalbert, Section of Nutrition and Metabolism
Kurt Straif, Section of *IARC Monographs* (Section Head)
Maria Zhivagui, Section of Mechanisms of Carcinogenesis

¹ Thomas Hatzold was until 2015 employed by and still holds stock options from Mondelez International, a multinational confectionery, food, and beverage conglomerate with headquarters in Deerfield, IL, United States. He is an Observer for the Institute for Scientific Information on Coffee, an organization whose members include six of the major European coffee companies.

² Alan Leviton has provided consulting services for the National Coffee Association, a trade association, based in New York, USA. He is an Observer for the National Coffee Association.

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans
VOLUME 116: COFFEE, MATE AND VERY HOT BEVERAGES
Lyon, France: 24-31 May 2016

NOTE REGARDING CONFLICTS OF INTERESTS: Each participant first received a preliminary invitation with the request to complete and sign the IARC/WHO Declaration of Interests, which covers employment and consulting activities, individual and institutional research support, and other financial interests.

Official invitations were extended after careful assessment of any declared interests that might constitute a real or perceived conflict of interest. Pertinent and significant conflicts are disclosed here. Information about other potential conflicts that are not disclosed may be sent to the Head of the Monographs Programme at imo@iarc.fr. Participants identified as Invited Specialists did not serve as meeting chair or subgroup chair, draft text that pertains to the description or interpretation of cancer data, or participate in the evaluations. The Declarations were updated and reviewed again at the opening of the meeting.

NOTE REGARDING OBSERVERS: Each Observer agreed to respect the Guidelines for Observers at *IARC Monographs* meetings. Observers did not serve as meeting chair or subgroup chair, draft any part of a *Monograph*, or participate in the evaluations. They also agreed not to contact participants before the meeting, not to lobby them at any time, not to send them written materials, and not to offer them meals or other favours. IARC asked and reminded Working Group Members to report any contact or attempt to influence that they may have encountered, either before or during the meeting.
