

**A Collaboration Project between International Agency for Research on Cancer (IARC)
and National Occupational Research Agenda (NORA)**

IARC Technical Publication No. 42

**Identification of research needs to resolve the carcinogenicity of high-
priority IARC carcinogens**

Views and Expert opinions of an IARC/NORA expert group meeting

Lyon, France: 30 June – 2 July 2009

This project was supported by a grant from the American Cancer Society (#SIF-08-001) to the International Agency for Research on Cancer. Earlier support was provided by the United States National Institute for Occupational Safety and Health. The contents of this technical report are solely the responsibility of the expert group and do not necessarily represent the official views of the International Agency for Research on Cancer, the American Cancer Society, the U.S. National Institute for Occupational Safety and Health, or any organization with which an expert group member is affiliated.
