

## CONTENTS

|   |    |
|---|----|
| NOTE TO THE READER.....   | 1  |
| LIST OF PARTICIPANTS.....   | 3  |
| PREAMBLE.....   | 7  |
| A. GENERAL PRINCIPLES AND PROCEDURES.....                           | 9  |
| 1. Background.....  | 9  |
| 2. Objective and scope.....   | 10 |
| 3. Selection of agents for review.....                              | 12 |
| 4. Data for the <i>Monographs</i> .....                             | 12 |
| 5. Meeting participants.....  | 13 |
| 6. Working procedures.....  | 14 |
| B. SCIENTIFIC REVIEW AND EVALUATION.....                            | 15 |
| 1. Exposure data.....   | 16 |
| 2. Studies of cancer in humans.....                                 | 18 |
| 3. Studies of cancer in experimental animals.....                   | 23 |
| 4. Mechanistic and other relevant data.....                         | 26 |
| 5. Summary.....   | 30 |
| 6. Evaluation and rationale.....                                    | 31 |
| References.....   | 36 |
| GENERAL REMARKS.....  | 39 |
| GENERAL DISCUSSION OF COMMON MECHANISMS FOR<br>AROMATIC AMINES..... | 41 |
| GENERAL INTRODUCTION TO THE CHEMISTRY OF DYES.....                  | 55 |

|   |     |
|---|-----|
| THE MONOGRAPHS .....                              | 69  |
| <b>4-Aminobiphenyl</b> .....                      | 71  |
| 1. Exposure Data.....                             | 71  |
| 2. Studies of Cancer in Humans.....               | 79  |
| 3. Studies of Cancer in Experimental Animals..... | 80  |
| 4. Mechanistic and Other Relevant Data .....      | 85  |
| 5. Summary of Data Reported.....                  | 98  |
| 6. Evaluation .....                               | 100 |
| 7. References.....                                | 100 |
| <b>Auramine and Auramine Production</b> .....     | 111 |
| 1. Exposure Data.....                             | 111 |
| 2. Studies of Cancer in Humans.....               | 120 |
| 3. Studies of Cancer in Experimental Animals..... | 121 |
| 4. Mechanistic and Other Relevant Data .....      | 125 |
| 5. Summary of Data Reported.....                  | 133 |
| 6. Evaluation .....                               | 134 |
| 7. References.....                                | 135 |
| <b>Benzidine</b> .....                            | 141 |
| 1. Exposure Data.....                             | 141 |
| 2. Studies of Cancer in Humans.....               | 180 |
| 3. Studies of Cancer in Experimental Animals..... | 198 |
| 4. Mechanistic and Other Relevant Data .....      | 221 |
| 5. Summary of Data Reported.....                  | 241 |
| 6. Evaluation .....                               | 245 |
| 7. References.....                                | 246 |
| <b>Dyes Metabolized to Benzidine</b> .....        | 263 |
| 1. Exposure Data.....                             | 263 |
| 2. Studies of Cancer in Humans.....               | 263 |
| 3. Studies of Cancer in Experimental Animals..... | 276 |
| 4. Mechanistic and Other Relevant Data .....      | 283 |
| 5. Summary of Data Reported.....                  | 290 |
| 6. Evaluation .....                               | 292 |
| 7. References.....                                | 293 |
| <b>Magenta and Magenta Production</b> .....       | 297 |
| 1. Exposure Data.....                             | 297 |
| 2. Studies of Cancer in Humans.....               | 305 |
| 3. Studies of Cancer in Experimental Animals..... | 307 |
| 4. Mechanistic and Other Relevant Data .....      | 310 |

|   |            |
|---|------------|
| 5. Summary of Data Reported.....                  | 318        |
| 6. Evaluation.....                                | 320        |
| 7. References.....                                | 320        |
| <b>4,4'-Methylenebis(2-chloroaniline)</b> .....   | <b>325</b> |
| 1. Exposure Data.....                             | 325        |
| 2. Studies of Cancer in Humans.....               | 342        |
| 3. Studies of Cancer in Experimental Animals..... | 343        |
| 4. Mechanistic and Other Relevant Data.....       | 348        |
| 5. Summary of Data Reported.....                  | 357        |
| 6. Evaluation and Rationale.....                  | 359        |
| 7. References.....                                | 360        |
| <b>2-Naphthylamine</b> .....                      | <b>369</b> |
| 1. Exposure Data.....                             | 369        |
| 2. Studies of Cancer in Humans.....               | 376        |
| 3. Studies of Cancer in Experimental Animals..... | 380        |
| 4. Mechanistic and Other Relevant Data.....       | 387        |
| 5. Summary of Data Reported.....                  | 395        |
| 6. Evaluation.....                                | 396        |
| 7. References.....                                | 397        |
| <b><i>ortho</i>-Toluidine</b> .....               | <b>407</b> |
| 1. Exposure Data.....                             | 407        |
| 2. Studies of Cancer in Humans.....               | 416        |
| 3. Studies of Cancer in Experimental Animals..... | 423        |
| 4. Mechanistic and Other Relevant Data.....       | 427        |
| 5. Summary of Data Reported.....                  | 449        |
| 6. Evaluation.....                                | 451        |
| 7. References.....                                | 451        |
| <b>4-Chloro-<i>ortho</i>-toluidine</b> .....      | <b>471</b> |
| 1. Exposure Data.....                             | 471        |
| 2. Studies of Cancer in Humans.....               | 478        |
| 3. Studies of Cancer in Experimental Animals..... | 480        |
| 4. Mechanistic and Other Relevant Data.....       | 481        |
| 5. Summary of Data Reported.....                  | 491        |
| 6. Evaluation.....                                | 493        |
| 7. References.....                                | 493        |

|   |         |
|---|---------|
| <b>Occupational exposures of hairdressers and barbers and personal use of hair colourants</b> ..... | 499     |
| 1. Exposure Data.....   | 499     |
| 2. Studies of Cancer in Humans.....   | 520     |
| 3. Studies of Cancer in Experimental Animals.....   | 630     |
| 4. Mechanistic and Other Relevant Data .....  | 634     |
| 5. Summary of Data Reported.....  | 641     |
| 6. Evaluation .....   | 646     |
| 7. References.....  | 646     |
| <br>CUMULATIVE INDEX TO THE <i>MONOGRAPHS</i> SERIES.....   | <br>659 |

## NOTE TO THE READER

The term ‘carcinogenic risk’ in the *IARC Monographs* series is taken to mean that an agent is capable of causing cancer under some circumstances. The *Monographs* evaluate cancer hazards, despite the historical presence of the word ‘risks’ in the title.

Inclusion of an agent in the *Monographs* does not imply that it is a carcinogen, only that the published data have been examined. Equally, the fact that an agent has not yet been evaluated in a *Monograph* does not mean that it is not carcinogenic.

The evaluations of carcinogenic risk are made by international working groups of independent scientists and are qualitative in nature. No recommendation is given for regulation or legislation.

Anyone who is aware of published data that may alter the evaluation of the carcinogenic risk of an agent to humans is encouraged to make this information available to the Section of IARC Monographs, International Agency for Research on Cancer, 150 cours Albert Thomas, 69372 Lyon Cedex 08, France, in order that the agent may be considered for re-evaluation by a future Working Group.

Although every effort is made to prepare the monographs as accurately as possible, mistakes may occur. Readers are requested to communicate any errors to the Section of IARC Monographs, so that corrections can be reported in future volumes.
